

FINANCIAL PRODUCTS

PUBLIC COMPANY BUSINESS

Hudson Financial Products offers management liability insurance to executives across diverse industries. We offer brokers high-quality service which includes cutting-edge products, quick turnaround, competitive rates and flexible underwriting. Our strength has always been our underwriting expertise and individual account underwriting. Class underwriting and cash flow underwriting inevitably lead to volatility for brokers and their insureds, and pricing models often lump good risks in with the bad and punish some insureds unfairly. At Hudson we believe in sound rating but we underwrite each risk on its own merits. We have worked hard to establish a long-term strategy that fairly balances the rate we charge our insureds against their exposure.

Hudson has been underwriting directors and officers liability insurance for nearly 20 years, providing a stable market for our brokers and insureds. Hudson enjoys an excellent reputation for its fair and highly professional claims handling service through experienced staff and monitoring counsel.
